

7.5 magnitude earthquake strikes near Ecuador-Peru border, USGS says

A 7.5 magnitude earthquake struck near the Ecuador-Peru border Friday. (USGS)

A 7.5 magnitude earthquake struck near the border of Ecuador and Peru early Friday, the U.S. Geological Survey said.

The earthquake struck 71 miles east of Palora with a depth of 82 miles. Another 5.5 tremblor was then felt about 9 miles southeast of Duran.

THOUSANDS OF CATTLE FEARED DEAD AFTER DROUGHT-STRICKEN AUSTRALIA HIT BY INTENSE FLOODING

There were no immediate reports of damage or injuries.

Video on social media showed residents standing outside in the streets.

Another person called the quake a “wake up call” in a tweet showing their chandelier moving back and forth.
